Where unusual conditions or inconveniences exist beyond the average the Jiggerman shall receive a percentage extra, the same to be fixed by the standing committee.

When a new man is put on a jigger he shall be selected from Jiggerman's helper, when found competent, at regular journeyman's wages.

Day wage—ordinary jigger $3.00.

Day wage—Jumbo jigger $3.50.

The day wage prices to be paid only pending a settlement of piece prices.

Kiln Work.

Placing Bisque Kilns 212 cubic feet a day.

Placing Glost Kilns 162 cubic feet a day.

All footed ware to be sponged. Where there is an ascension of a half story to the green room or dipping room there shall be one-half day added to kiln and one full day for full story. Where the distance from the door of the green room or dipping room is between sixty and seventy-five feet to the kiln door an extra half day shall be allowed. Where the distance is between 75 and 100 feet one day extra shall be allowed. Where the distance is between 100 and 125 feet an extra one and one-half day shall be allowed.

Every pin bung placed in the first ring shall count two ovals.

Journeymen Kilnmen $2.00 for each days work in the kiln.

Bench Boss $2.50 for each days work in the kiln.

China placing bisque and glost to remain same as heretofore in each locality, east and west.

When it becomes necessary to put on an apprentice he shall serve three years. The first week he shall be paid out of the office, after which he shall receive a day out of the kiln until he has served three months at the trade, If it becomes necessary to work after five o'clock he shall be paid extra. The first six months he shall receive $1.25 per day; second six months $1.35 per day; second year $1.50 per day; last year 15% less than Journeyman's wages, and receive all extra time after three months. Not more than one apprentice to eight journeymen is allowed. Where it is convenient the apprentices on the glost and bisque shall exchange at the expiration of eighteen months. In shops where there are less than eight journeymen in the crew they shall be entitled to an apprentice.

Where a scarcity of kilnmen exists the manufacturers shall have the privilege of putting on an additional apprentice who shall be paid at regular journeymen rates, the excess of his regular apprenticeship wages to be divided among the kilnmen of the crew for the first year and go to the manufacturer thereafter. This concession is made to the kilnmen in consideration of the time they give to teaching the apprentice, and it is understood that the kilnmen are to be responsible for the workmanship of said apprentices.
